## A - Overview of desk

Glitch office table is a solid steel frame construction with a bamboo work surface. The workstation's structure extends into a multi-use 'hang-space' for all those jackets, bags, helmets, plants, earphones that inevitably clutter valuable desk space. An additional feature is the arms reach away shelf above a cork covered pinboard style back.

## B - Construction

The frame is welded together using 25mm square section

# C - Construction

5mm holes for attaching the bamboo boards

BACK ISOMETRIC VIEW

DETAIL VIEW OF SHELF AND HANGER

## D - Construction

The back board is a sheet of 10mm plywood, covered with a sheet of 5/6mm cork.

## D - Construction

I used a plastic end cap to fit this bamboo end piece to the steel square section.

TABLE TOP, SHELF AND  
HANGERS STOP

The surface for this desk was made using bamboo floorboards, however any locally sourced board or sheet material can be used.

If you have any questions regarding the design/production please get in touch with us on **[sales@nothrowdesign.com](mailto:sales@nothrowdesign.com)**. Or if you happen to be in Barcelona come and pop by our **showroom**.

The registered owner of this design is Ryan Frank, however you are free to download the blueprints under the Creative Common License. Meaning you can copy and redistribute the blueprints in any medium or format and remix, transform, or build upon the products provided. What we would ask in return is to give us appropriate credit, provide a link to the license, and indicate if changes were made. If you remix, transform, or build upon our designs, you must distribute your contributions under the same license as the original. Our only restriction is to not use the design for commercial purposes. Find our full licensing terms here: **<https://creativecommons.org/licenses/by-nc-sa/4.0/legalcode>**

And should you have trouble finding a local Maker check out our Meet the Maker space **[www.nothrowdesign.com/Meet-the-Maker](http://www.nothrowdesign.com/Meet-the-Maker)**. Here you can not only find links to a Makers database by country but also trusted individuals that we have worked with before.

Happy Making!

PS We would love to see a picture of the final product in your home (send to: [photos@nothrowdesign.com](mailto:photos@nothrowdesign.com))
