GRPL HOOKS

GRPL hooks started out as a rusted crane hook found in a scrap yard. This inspired us to adapt this industrial product into a high-strength, lightweight hook system that can be used in the home and garden. The hook is injection moulded in a strong, durable bio-plastic, which comprises of grass clippings [70%] and recycled polypropylene.

The product is sold in a pack with either one hook or three, and includes the length of webbing and buckle required for hanging.

GRPL hooks provide a stylish and sustainable solution for many storage needs. Coats, hats, bags, pots, bikes, plants.....
What will you hang? .

SPECIFICATIONS

Weight: 0.115 kg

Dimensions: 16 x 1.9 x 2.2cm

Hook colors: natural, black, dark green

Pack Content: 1 Hook, Webbing and Buckle / 3 Hook, Webbing and Buckle

Materials: Bio-plastic,
French grown jute webbing

HOOK100 WALL

Hook100 started out as a desire to simply have a hook on the wall.

This hook then provided an interesting and creative way to store and display range of random objects, be it a sack of oranges or an old pair of roller skates, this led to the creation of **Hook100**.

The storage system is made up of 3 components, the hook, the webbing and the tab.

The hook is injection moulded in a strong, durable bio-plastic, which comprises of grass clippings [70%] and recycled polypropylene. The webbing is French grown jute, which is very strong and sustainability grown, and the tab is stainless steel and designed to simply clip on a nail or screw on a wall, providing a simple installation for a smart storage solution.

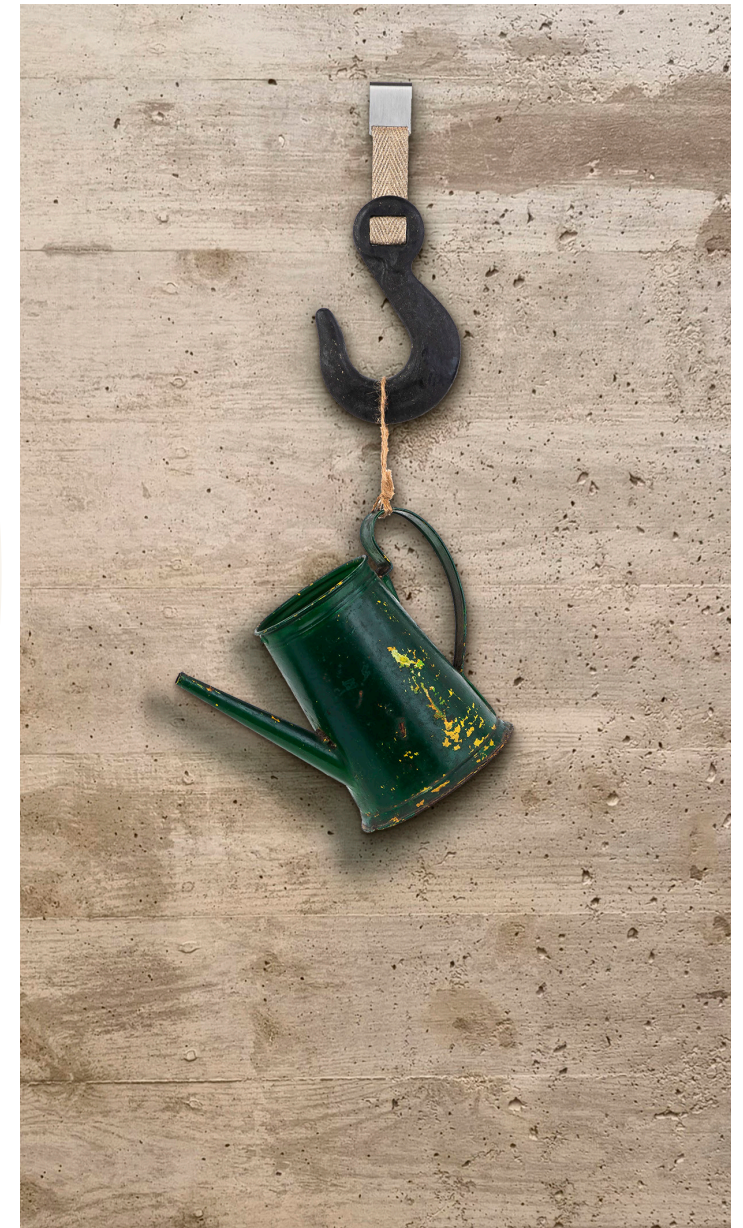

SPECIFICATIONS

Dimensions: 16 × 1.9 × 2.2 cm

Weight: 0.115 kg

Colour Variations: Yellow, Green, Natural webbing

Materials: Bio-plastic,
French grown jute webbing
Stainless Steel

HOOK100 DOOR

The door version of the **Hook100** allows the hook to be simply clipped on top of a regular door. As with the wall version the webbing come in 3 colours: yellow, dark green and natural.

SPECIFICATIONS
